VENTURES**
Child Care

School Release Days 2011-2012

For students in grades K-8

While at Learning Ventures, your child has extra time for hobbies and friends in a safe, supportive environment. Learning Ventures staff prepares activities to provide hands-on play experiences that encourage children to be creative, think critically, develop self-direction, and experience a sense of belonging. Our commitment to you is to provide a child care program that enhances your child's social development and bridges your child's academic education with out-of-school-time learning.

Located at Woodcrest Elementary

Please call our Spring Lake Park Schools - Community Education office at 763-786-1338 for registration material, or learn more on-line at www.springlakeparkschools.org/ce.

Flashpoint Flashpoint Everything Changes

Everything we see and touch has the ability to change. Sometimes substances change to form new substances - a chemical change. Other times substances change but keep the same identity - a physical change.

Throughout the 2011-2012 school-year, we will examine change with a scientific perspective ... asking lots of questions. Why does a yellow banana turn brown? What makes an ice pop melt? Can substances be turned back to their original form after a change?

With a variety of fun, interesting activities, we will experiment to discover the effects of temperature, time and environment on the world around us.

Parent Feedback

"It's a wonderful feeling knowing that your children are being safely taken care of and are happy."

"Great teachers who really care for the kids."

"My son enjoys his time with friends."

"Ease of having school-connected care is the best part. Cost is affordable also."

"Fun, creative, caring."
