

My Research Project About Shih tzus

By Carl

They can be found in...

Habitat

Shihtzus usually live in peoples houses but sometimes they live in the wild. They need exercise so they spend a lot of time outside.

Physical Appearance

Shih tzus have a unique look. They mostly have short hair but they can also have long hair. Shih tzus can be all kinds of colors but mostly brown hair. Shih tzus have beautiful eyes, their eyes are mostly blue. They have sharp, pearl like teeth.

Food

Shihtzus eat lots of food. They eat lots of dog food. They also eat a lot of meat or human food. They love water, snow and chopped ice. They like bones, biscuits and treats also.

Interesting Facts

Shih tzus are very interesting, here are some cool things about them. Shih tzus love to chew on stinky socks, isn't it gross? They really like to be around people. They actually inhale food in one minute, cool huh? Shih tzu can run as fast as me and I am nine years old. They are very cool!! Shih tzus have little bristles on their tongues. Shih tzu like the outdoors because they like to run. They have baby teeth like people, before they lose them. Shih tzus can be hard to train because sometimes they don't listen. Some shih tzus have ears that stick up that makes them look like bats.
