

My Research Project About Gorillas

By Jacob

They can be found in...Africa

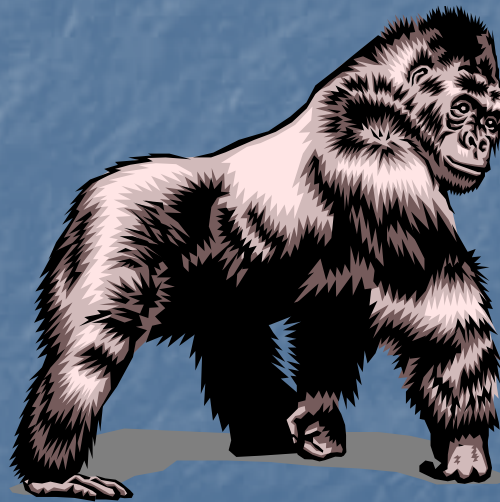

Habitat

A gorilla lives where it is warm.
They live in Africa and West Africa.
You can also find them in zoos and
zoo books.

Physical Appearance

Some have silver backs. They're black and gray. They have four arms.

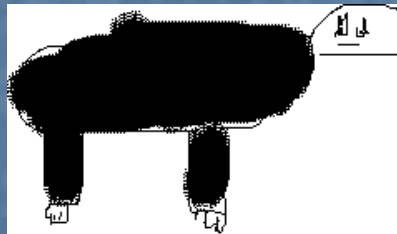

Food

Gorillas eat lots of different foods like leaves and bark, and they drink steam.

Interesting Facts

Gorillas have four arms. When babies are born they look like human babies.
