Northpoint Elementary School rises at 2350 124th Court in Blaine

District 16's newest school-to-be, Northpoint Elementary, is swiftly rising, as evidenced by these pictures taken on September 27.

It was well into the summer before work began on the school, but it is now fully visible to passersby.

Northpoint, which will be a 700-student capacity K-3 school, is located at 2350 124th Court in Blaine, just south of the corner of County Rd. 14/125th Avenue and Cloud Drive.

Construction crews will have the school fully enclosed by December, allowing work to continue throughout the winter months. The school will be completed in the summer of 2008 and will open its doors to its first students in the fall of 2008.

A school district boundary study has begun. Attendance boundaries for the new school will be established and announced shortly after the first of the year.
