

## **MATH TEAM**

**The purpose of the Junior High Mathematics League is to encourage students to participate in math contests, serve as a “farm club” for the Minnesota State High School Mathematics League, enable students to meet mathletes from other schools, and to provide recognition for students excelling in mathematics. It also serves as preparation for the annual MathCounts competition. The meet topics are based on the MathCounts topics.**

**We are a member of the Radicals division and compete against Centennial Middle School, Highview Middle School, Edgewood Middle School and Chippewa Middle School.**

**During the last season we have 4 students finish the season in the top 10, as well as the number 1 winner. Our team came in second place overall. In the MathCounts Competition we finished in 4<sup>th</sup> place.**

**Math Team meets every Monday for either practice or competition in Room 216. The fee is \$50.**

**The advisor is Angela Clement**
